

Report of the Editor August 2007

Sound system: There appear to be only very cheap systems - under \$100, or very expensive and not very portable systems starting at around \$400, and going well up from there. The Source seems to be the most likely store to have the cheaper ones in stock.

August Mainsheet: An article and some photographs describing the June 2007 sailing programme for the visually impaired at Bronte Harbour Yacht Club has been submitted to John Hinksman.

VHF: Arrangements are being completed with Petro-Canada for another ROC(M) course. Since Headquarters was out of stock of materials, the course will now be run sometime in September. Dates to be confirmed. A group at BHYC has also approached me to run a course at the Club, but this has not been confirmed yet.

Advertisement: The Oakville Parks and Recreation Brochure, with our quarter page advertisement has been distributed to all Oakville residents. Copies may also still be available in libraries.

Hugh Ramsay.
